

# Application Building

## Testing The Model

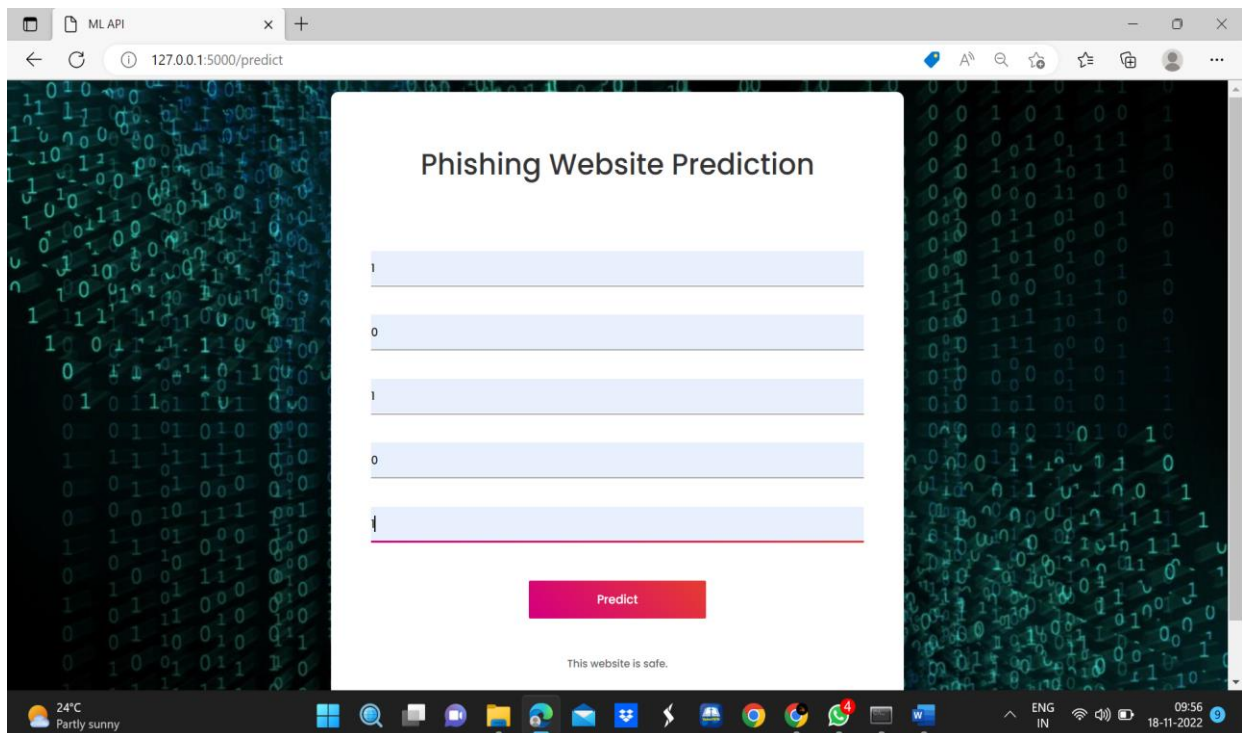

Date	5 November 2022
Team ID	PNT2022TMID51349
Project Title	Web Phishing Detection

About the project section which gives insights about the project.

The screenshot displays a web browser window with a single tab titled 'ML API'. The address bar shows the URL '127.0.0.1:5000'. The main content area features a white card with the title 'Phishing Website Prediction' centered at the top. Below the title, there are five input fields, each with a label and a horizontal line for text entry: 'SSLfinal\_State', 'URL\_of\_Anchor', 'Prefix\_Suffix', 'Web\_Traffic', and 'Domain\_registration\_length'. At the bottom of the card, there is a prominent red button labeled 'Predict'. The background of the application is a dark green field filled with a pattern of white binary digits (0s and 1s). The browser's taskbar at the bottom shows the Windows Start button, a search icon, and several application icons including File Explorer, Microsoft Edge, and WhatsApp. The system tray on the right indicates a temperature of 24°C, 'Partly sunny' weather, the language 'ENG IN', and the date and time '09:47 18-11-2022'.

When clicked on “Check your website” button, the user will be redirected to the below page where user can specify the URL.

The screenshot shows a web browser window with a single tab titled 'ML API'. The address bar displays '127.0.0.1:5000/predict'. The page content is titled 'Phishing Website Prediction' and features a form with five input fields. The first four fields are labeled '1' and '0' respectively, and the fifth field is labeled '1'. Below the input fields is a red 'Predict' button. At the bottom of the form, the text 'This website is safe.' is displayed. The background of the page is a dark green with a pattern of binary code (0s and 1s). The Windows taskbar at the bottom shows the date and time as 09:56 on 18-11-2022, along with various system icons and application shortcuts.
